

## **Warren Buffett's Secrets Available to Your Children Today!**

Dear Friend,

We are living in perilous times.

Many people are losing their jobs because of the COVID-19...

Many people are short of savings and cannot take care of themselves or their families...

Many people lose the investments they made during their lifetime...

But you have many people who manage to remain financially afloat during every period, including during severe financial crises.

Warren Buffett is one of these people.

He started his journey to wealth when he bought his first stock at 11, following the advice of his grandmother!

And he never forgot the financial lessons that his grandmother taught him. They accompanied him during his whole life until today, as he is one of the richest men of the planet.

But you may ask me: what is the difference between the ordinary man and Warren Buffett?

The answer resides in two words:

**FINANCIAL LITERACY.**

Financial literacy is the key skill that helped Warren Buffett to thrive financially and to raise above the fray.

You can also help your children to be financially secure and prosperous when they grow up, just like Warren Buffett.

**Satisfaction guaranteed.**

Dear Friend,

What do Warren Buffett and J.D. Rockefeller have in common?

Obviously, they are both very famous billionaires and are listed among the richest people who ever lived on earth.

But most people don't know that the source of their immense wealth came from their financial education and the sound financial habits they had religiously applied since their childhood.

These habits followed them through adulthood and helped them to become financially prosperous, create multigenerational wealth beyond compare and enter into history books.

Unfortunately, it seems that everyone has lost this precious financial knowledge nowadays in America.

And every generation of adult Americans is affected by this newfound financial illiteracy. Just check out these facts:

- 40% of Americans don't have enough cash to cover a \$400 emergency
- 76% of millennials lack basic financial knowledge, especially when it's related to money management
- Nearly 50% of Americans don't have a retirement savings account and the median retirement savings account of Americans has only \$5,000 on it.

These disheartening figures are living examples of the financial insecurity that plagues many honest, hard-working Americans right now.

That's why we need to save our children from this and never let them be added to these alarming statistics.

However, it seems that even the government and parents have failed American children in the area of financial education altogether.

Few states have included financial education and money management in our schools' curriculum. It is not considered as a worthy issue to deal with at all.

As for most parents, they mainly focus their children's upbringing on academic excellence and/or social graces, which is perfectly fine.

But the same parents fail to give proper financial education to their children. Some even think that talking about money to their children is vulgar and inappropriate.

And guess what? Financial education will be a key skill that your children will have to master in the future if they want to be successful and take sound financial decisions in real life.

In other words, if your children are financially illiterate now, they'll have more chances of ending up totally bankrupt, with debt to their necks, and even perhaps homeless in their adulthood.

We know you want what's best for your children in all areas, including the financial one.

For this reason, amidst these startling financial circumstances in America, we decided at BestFin Inc. to create the perfect solution for your children aged between 10 and 17.

Now is the time to strike while the iron is hot!

With Budget Brainiacs, we offer you a fresh and unique educational system that will help you to enhance your children's financial acumen and perspectives right away.

Once your children try Budget Brainiacs, their vision of money will dramatically change... for the best!

## **An Unprecedented Family Club Dedicated Only to The Financial Education of Your Children**

Indeed, Budget Brainiacs is an innovative, one-of-a-kind Family Club that is exclusively dedicated to your children's financial education.

It aims at improving their chances of being financially prosperous and secure when they grow up.

If you want your children to...

...grow up as financially responsible adults...

...remain financially afloat in every circumstance, whether good or bad...

...be successful investors and retire early without financial issues at hand...

...be winning professionally by picking the best jobs and business opportunities...

...to live their best life with beautiful homes, beautiful cars, exotic holidays in exclusive places...

...then, Budget Brainiacs and your children are meant to be!

And don't think that Budget Brainiacs is just another boring board game or a set of random educational videos downloaded on a website. Our Family Club is nothing of the sort.

We are perfectly aware that children can find financial issues and discussions boring and uninteresting when they are around adults.

Instead, your children will live an unparalleled training experience that will get rid the association of finance and boredom from their mindsets...for good!

They will learn key financial skills and habits while having fun in the same time, through our tailored interactive online courses.

Here are some examples of financial skills that your children will learn in our online courses:

- ✓ The **Budget Module** will teach your children how to create an effective monthly budget and stick to it.
- ✓ The **Debt Module** will explain them the difference between good debt and bad debt; and how to leverage debt to become wealthy.
- ✓ The **Accounts Module** will teach your children how to open current, savings and investment accounts and how to make the most of them in their daily lives.
- ✓ The **Professional Module** will show your children how to land a well-paid job or how to build a business by capitalizing on their hobbies.

These modules are just a glimpse of what a membership in Budget Brainiacs can bring to your children in terms of financial literacy and guidance. In addition, your children will get:

- ✓ **Flexible Lessons:** each child of your household will follow the lessons adapted to their age, preferences and level of understanding, as the modules are divided by age range.
- ✓ **Continued Learning and Growth:** your children will be able to measure their level of understanding of the lessons learnt within the different modules through our interactive quizzes and playful cheat sheets.

- ✓ **Practical Application:** your children will be prepared to apply their knowledge and newfound financial habits through simulations of real-life situations, such as buying a car, creating a business, or looking for a job.
- ✓ **Cool Rewards:** every time they participate in quizzes, your children will obtain rewards in points redeemable in our exclusive Club Store, where they can acquire fun, useful prizes and goodies. Their friends will be jealous!

In a nutshell, Budget Brainiacs is currently the perfect training for the financial education of your children that exists on the market.

Indeed, our exclusive Family Club represents the perfect blend of thoughtful financial expertise, creative knowledge dissemination adapted to children, as well as an unprecedented didactic approach on money matters.

For all those reasons, Budget Brainiacs received several endorsements from several child authorities, financial planners, banks, credit companies and insurance companies.

**List of institutions that endorsed Budget Brainiacs:**

**Merrill Lynch**

**Citibank**

**AIG**

**Federal National Mortgage Association**

**Child Protective Services**

Beyond those professional endorsements, our Family Club members are the best ones to talk about the benefits that their children reaped with Budget Brainiacs.

Let's hear what some of loyal members say about our Family Club:

**"My local mommy group has done a lot of research to try and find programs that teach our kids about money. Most websites are too boring or too cartoon-y/childish. We needed something for older kids (tweens), which was very hard to find. Then we came across Budget Brainiacs and all I can say is HOORAY! Each of us enrolled in the Club and our kids love earning points for stuff they really want... while also learning how to budget for things and avoid debt. Thank you!"**

**J. Sanders**

**"I home-school my children and I'm always looking for ways to bring real-life lessons into my teaching. Your program is fantastic. Every day, my kids ask... when are we going to Budget Brainiacs? They love the games and they especially love earning points when they pass the quizzes. They each opened a bank account, and now they understand how interest works. It's such a relief to know my children will be well-prepared for managing their money when they embark on their own lives as adults."**

**T. Bazell**

**"I'm a professional mommy blogger who gets about 30,000 hits on my website each month. Based on the comments on my blog posts about Budget Brainiacs, you have a home run! My readers are very enthusiastic about this club. Their kids are buzzing about the points they can earn for cool prizes... but also, they talk about how dumb it is to rack up debt and how you should plan ahead for big expenses. These comments are coming from 13-year-olds! Wow! So glad you're out there. Thank you."**

**H. Walters**

If the future financial well-being of your children matters to you, Budget Brainiacs will also be an essential part of your household. We guarantee you that you won't regret your subscription!
